Textlocal Shutdown?: Here Are the Top SMS Platforms to Try in 2025

If your company has used Textlocal to send messages, such as OTPs, alerts, or promotional SMS, you may have heard that you are closing operations in India. Very soon, you will not be able to send any message through textlocal. If you do not move to another provider in time, your messages may stop leaving and your customers may lose important updates. This may seem scary, but don't worry. There are other great platforms available that can help you keep sending messages smoothly.

In this blog, we will show you Top SMS Platforms to replace textlocal. We'll start with a trusted provider and also highlight some other popular and growing alternatives.

Why is Textlocal Shutting Down?

Textlocal will no longer work in India due to some business decisions and rules set by the government. Due to strict rules and tough competition, it has become difficult for Textlocal to continue in India. If you used Textlocal for sending messages, you should switch to a new provider now .So your OTPs and SMS keep going without any trouble.

What to Look for in a New SMS Provider

Before you choose a new SMS service make sure it can:

- Help it with the registration of DLT (a government requirement in India)
- Send OTP and promotional messages
- Connect with the WhatsApp business too
- Deliver messages quickly and reliably
- Give delivery reports instantly
- Work easily with your current software
- Quick offer and useful customer support

Top 5 Alternatives for Textlocal in 2025

1. Arihant Global - Most reliable and easy to use

Arihant Global is a well -known and trusted company that offers SMS and WhatsApp messaging services. If your business was using textlocal and now you need a new service because textlocal is turning off in India, Arihant Global can help you change without technical problems.

You don't have to be a technology expert, they will guide you step by step.

Why choose Arihant Global?

- They help you move your existing setup for free
- Send the OTP and Bulk SMS quickly (usually within 1 to 3 seconds)
- Full support in DLT registration
- Use the WhatsApp API to send alerts and offers
- Simple prices (₹ 0.20 to ₹ 0.30 per SMS)
- Friendly support available 24/7

Great choice for: E-commerce sites, financial services, educational institutes, healthcare providers, and growing startups

2. Valuefirst - Great Company, reliable messages

Valuefirst is a company that helps companies talk to their customers by sending messages. This can be a text message (SMS), a WhatsApp message, an email or even a voice call.

They have been doing this for many years, so they have good experience and strong systems.

Why use the Valuefirst?

- Deals with large volumes of messages easily
- Integration with CRMS and other tools
- Helps you through the DLT registration process
- Strong customer support and ready -made tools for the company

Great choice for: Large companies, mobile applications, fintech companies

3. General Mobile & Technology – A flexible, business-friendly SMS provider.

GMT is a solid player in SMS and communication solutions.They focus on reliable delivery and good customer experience.

Why consider GMT?

- Have strong message infrastructure
- Supports promotional and transactional SMS
- Assists with DLT registration process

Great choice for: Startups, delivery services, educational platforms

4. MCarbon Tech Innovations – Telecom-Grade Messaging

Mcarbon is known for its deep roots in telecommunications and provides a reliable API for message delivery. It is used by businesses.that need secure and rule-compliant messaging.

Why Choose MCarbon?

- Telecom-grade platform
- Works strongly under traffic load

- Reliable by public utilities and financial services
- Government regulation ready

Great choice for: Public Services, Government App, Insurance

5. PRP Services– Affordable & Local-Friendly

PRP services are ideal for small to medium -sized companies that want cost-effective messaging solutions without compromising delivery speed.

Why consider the services of PRP?

- Affordable price plans
- Personalized integration and configuration help
- Good delivery interface and OTP panel

Great choice for: Local stores, training centers, services based businesses.

Final Thoughts: Don’t Wait to Switch

The textlocal is turning off, which means your messages can stop working soon. But don't worry, there are good alternatives available. You can move to a reliable supplier like Arihant Global or choose other reliable options, such as Valuefirst, GMT, Mcarbon or PRP services. These companies can help you continue sending OTPS, alerts and promotional messages without problems.

Take action now so your customers continue receiving important updates without delays.
